KAC TOKEN WHITEPAPER (V1.0)

Community-Driven Transparency on BNB Smart Chain

1. Introduction

KAC Token is a community-driven BEP-20 token deployed on the BNB Smart Chain (BSC). Our project is founded on the pillars of transparency, security, and fair participation. We aim to empower our users by providing a safe ecosystem for decentralized finance (DeFi) and blockchain education.

2. Vision & Mission

- **Vision:** To establish KAC Token as a trusted gold standard for transparent and community-led blockchain projects.
- **Mission:** To provide a safe, accessible, and fair environment for trading and long-term community growth.

3. Core Principles

- **Transparency:** Open-source contract and verified ownership.
- **Safety First:** Liquidity is locked for 6 months on PinkSale to protect investors.
- **Decentralization:** Ownership is renounced to ensure the community leads the project's future.

4. Tokenomics

- **Token Name:** KAC Token
- **Symbol:** KAC
- **Blockchain:** BNB Smart Chain (BEP-20)
- **Total Supply:** 100,000,000 KAC (100M)
- **Launch:** Fair Launch (No ICO/IEO, No Private Sale)
- **Liquidity:** Locked on PancakeSwap

5. Roadmap

- **Phase 1 (Q1 2026):** Token deployment, Contract verification, and BscScan Logo Update.
- **Phase 2 (Q2 2026):** Multi-platform social branding (Telegram, Facebook, YouTube, Twitter) and Educational content rollout.
- **Phase 3 (Q3 2026):** Ecosystem expansion, including potential gaming integration and strategic partnerships.
- **Phase 4 (Q4 2026):** Ongoing transparency updates and transition to full community governance.
